Re: D & H Performance at the **Hilarita** Renovation

To whom it may concern:

I have had the pleasure of working with D & H Construction for over two years now on the planning and construction of the renovation of 104 apartments at the Hilarita complex in Tiburon. Both Jeff and David have been conscientious, careful and considerate in every aspect of their work. Their attention to detail, willingness to produce required paperwork in a timely manner, insistence on good workmanship, and courtesy and respect for the tenants they are working around, contributed to the success of this large scale renovation.

I can recommend them without hesitation as general contractors.

Sincerely,

Stuart Stoller
