Subject: Good Contractor

As I have managed the Eden design and construction process, I have been working with one of the most professional construction companies I have seen in a long time.

Please take a moment to visit their web site and get acquainted with the types of projects they are capable of doing.

I would like to recommend them to you, and would suggest you think of them when providing references or suggesting contractors to our clients.

Before recommending them, you might want to call Jeff and discuss the project you have in mind, to assert that they are interested in that project.

For instance, Jeff has indicated to me that they do not do condominium work, but there are plenty of other projects coming our way.

They are quite competitive and do good, conscientious work.

Having them work on our projects will only result in making us look good.

Keep them in mind when the opportunity arises.

Thanks.

Erick Moreau
