

# Camilla Vance

Project Manager

Camilla has coordinated teams in building nearly 400 new units and over 250 remodeled units of multifamily housing across the Bay Area. Detail oriented and organized, Camilla utilizes her background in contract documents, budgets, schedules, building code, and permitting to create and oversee scopes of work from preconstruction through turnover.

Her formal education included architectural modeling & prototype engineering, with courses focused on blueprint/plan reading and turning two-dimensional plans into three-dimensional objects via various machining and hand tooled methods.

As a D+H Project Manager, Camilla is the primary contact with the owner and architect, and works with closely jobsite superintendents on scheduling and coordinating employees, subcontractors, and vendors. Additionally, Camilla manages the project budget.
